SPREADERS

FULLY AUTOMATIC SPREADERS

One model of Fully Automatic Spreaders for all types of port cranes:

- Mobile harbour Cranes Spreaders.
- Ship to Shore Cranes Spreaders.
- Yard Cranes Spreaders.

SEMI-AUTOMATIC SPREADERS

Fully customizable:

- 10' - 20' - 40' - 45'
- More than 2000 Units sold worldwide.
- Drawing Approved by GL.
- Electric version also available.
- Double security system to avoid failures during the lifting.
- Guides / Flippers upon customer request.
- Plates for oversized loads.
- Forklift pockets for transporting of the unloaded spreader.

EASY SPREADERS

For a non-intensive use, valid for all types of containers.

2 Versions available:

- For outdoor use.
- For indoor use.

SPREADERS FOR INDOOR USE

- With short wires or directly linked to the hook of the crane.
- Semiautomatic or manually operated.
- Valid for all types of containers.
- Electric version also available.

OPTIONS

1

HIGH VISIBILITY SIGNS

Our spreaders can be provided with:

- Highly visible panels to inform the operator about the position of the cones.
- OPEN / LOCKED signs in any language.
- Reflecting stickers in the short sides of the spreader to increase its visibility in dark environment.

2

LONG TERM GALVANIZED PROTECTION

TEC's Spreaders can be delivered with a hot dip galvanized coating for extra protection against corrosion. This extra protection guarantees an extra long life for your spreaders.

3

ALL OUR SPREADER CAN BE PAINTED WITH YOUR CORPORATE COLOURS & INCLUDING YOUR LOGO

4

EXTENSION CHAINS

To handle open-top containers or containers with considerable deformation.
Total length according to customer requirements. CE certificate included.

5

FCL TRANSPORTABLE

All TEC CONTAINER Spreaders can be produced demountable in order to reduce transport cost as the spreader can be shipped in a standard ISO Container.
Clear instructions about mounting at site are delivered together with the spreader.

6

GUIDES / FLIPPERS

Very useful to facilitate approaching maneuvers of the crane driver to the container. A full range of flippers with different characteristics are available upon request.

7

FORKLIFT POCKETS

The easiest way to move and store the spreader when it is not in use. Unless indicated otherwise, all TEC CONTAINER Forklift Pockets are to be used only when the spreader is not loaded. Pockets are valid only for transport purposes.

8

LOAD TEST

All our Spreaders are delivered with a CE certificate. If a third party inspection is requested TEC could provide a Bureau Veritas "LOAD Test Certificate".
